ARIELA FEED PREMIXES

AMCiCHROMIUM 0.04%	Chelated chromium feed premix.	25 kg
AMCiCHROMIUM 0.1%	Chelated chromium feed premix.	25 kg
AMCiCHELMIN I	Chelated mineral premix with iron, copper, manganese, selenium, zinc and cobalt.	25 kg
AMCiCHELMIN C	Chelated mineral blend of chromium, copper, iron, manganese, selenium, zinc and cobalt.	25 kg
AMCi-E PLUS	Vitamin E + chelated selenium feed premix.	25 kg
AMCiBIOTIN 0.04%	Biotin feed premix.	25 kg
AMCi CURE	Synergistic blend of selected minerals with good adsorption properties, mannan-oligosaccharides and beta-glucans.	25 kg
AMCiLYTE	Electrolyte concentrate powder.	10x1kg / 20x1kg
AMCi E-40	Vitamin E concentrate powder.	1kg
AMCiBIOLYTE C	Vitamin C + electrolyte concentrate powder.	10x1kg / 20x1kg
AMCi BIOMAX 143	Multivitamin & electrolyte concentrate powder.	10x1kg / 20x1kg

DSM - BIOMIN

MYCOFIX SECURE	A high quality mycotoxin binder with EU approval.	25 kg
MYCOFIX SELECT 3.0	An effective mycotoxin risk management solution for T-2 Toxin, Deoxynivalenol, Aflatoxin & others.	25 kg
MYCOFIX PLUS 3.0	A complete mycotoxin risk management solution for Zearalenone, Deoxynivalenol, T-2 Toxin, Aflatoxin & others.	25 kg
MYCOFIX PLUS 5.0	The absolute mycotoxin risk management solution for Zearalenone, Fumonisin, Ochratoxin, Deoxynivalenol, T-2 Toxin, Aflatoxin & others.	25 kg
MYCOFIX PLUS 5.Z	The absolute mycotoxin risk management solution for Fumonisin, Ochratoxin, Deoxynivalenol, T-2 Toxin, Aflatoxin with faster Zearalenone detoxification.	25kg
BIOTRONIC SE	A blend of selected organic acids and their salts embedded in a specialized carrier.	20 kg
BIOTRONIC SE FORTE LIQUID	A powerful combination of synergistically acting organic acids and salts for the control of Gram-negative bacteria ( <i>E. coli</i> and <i>Salmonella</i> ).	4L/20L 1,000kg
BIOTRONIC TOP 3	A synergistic combination of organic acids and phytochemical embedded product in a special carrier and supported by a permeabilizing agent.	25 kg
BIOTRONIC TOP LIQUID	A synergistically acting combination of organic acids and Biomin Permeabilizing Complex for a stronger antibacterial effect and improved growth	10 kg
POULTRY STAR ME	A well-defined, poultry-specific, multi-species synbiotic product.	25 kg
POULTRY STAR SOL	A well-defined, poultry-specific, multi-species synbiotic water-soluble product.	300g

ARVESTA - PALITAL FEED ADDITIVES

AVEMIX 02CS	Multi-enzyme product composed of endo-1,3(4) β-glucanase; endo-1,4-β-xylanase, pectinase, mannanase, cellulase and protease.	25 kg
AVEMIX XG10	Multi-enzyme product containing high levels of endo-1,3(4) β-glucanase & endo-1,4-β-xylanase.	25 kg
AVEMIX P5000	Thermostable <i>E. coli</i> based 6-phytase.	25 kg
AVEMIX PRO	Thermostable, neutral, bacterial endopeptidase produced by <i>Bacillus spp.</i>	25 kg
AVEMIX PLUS	Antimicrobial oil product composed of medium-chain triglycerides.	25 kg
AVEMIX MC12	Unique combination of highly concentrated and coated lauric acid along with pure monolaurin, a monoglyceride of lauric acid, that supports animal health and performance by reducing the bacterial load of Gram-positive pathogens such as <i>Streptococcus spp.</i> and <i>Staphylococcus spp.</i>	25 kg
INTEST PLUS QUATTRO	A unique blend of sodium and calcium butyrate embedded in a patented matrix coating technology.	25 kg
PALIBIND PRO DRY	A high quality, low inclusion pellet binder formulated to improve pelleting efficiency and net factory output.	25 kg

T&S INTERNATIONAL

GRO-TEC YEAST EXTRA	Yeast nutritional metabolites containing specific strains of <i>Saccharomyces cerevisiae</i>	22.7 kg
DENATURED SPRAY DRIED INEDIBLE EGG POWDER	Pasteurized spray-dried, 100% whole egg product.	22.7 kg

EC DIGEST	Enzymatically processed and extruded chicken and egg product.	25 kg
-----------	---	-------

EW NUTRITION

AMCI ACTIVO	Synergistic blend of microencapsulated secondary plant compounds for overall gut health performance.	10 kg
BGMOS	Blend of mannan-oligosaccharides (MOS) and beta-glucans for gut health	25 kg

NORFEED

NORPONIN OPTI	Standardized saponins from <i>Yucca schidigera</i> , Quillaia, Quinoa & <i>Camellia sp.</i> for ammonia deactivation.	25 kg
NORPONIN M	<i>Yucca schidigera</i> extract for ammonia deactivation.	25 kg
NOR-GRAPE PX 100	Standardized grape extract rich in polyphenols, anthocyanins and proanthocyanidins.	25 kg
NOR-MITE	Aromatic formulation of plant extracts: Cloves and lemon grass that repel external parasites.	25 kg
NORPONIN XO2	Synergistic blend of saponins from <i>Yucca schidigera</i> and <i>Trigonella foenum</i> to manage coccidia.	25 kg

BIOSECURITY PRODUCTS - HEATON

AMTROL	Broad spectrum disinfectant containing chlorinated phenols, glutaraldehyde & QAC.	4L
DDAC 50	Twin-chain QAC-based disinfectant with superior germicidal activity against a broad spectrum of pathogens.	1L/4L
CEKOCIDE	Broad spectrum 90% peroxygen based disinfectant.	1 kg
AMCiDIGERM	Heavy duty liquid detergent containing QAC.	4L/20L
GLUTAPLUS	Broad spectrum disinfectant containing a homogeneous blend of glutaraldehyde, QAC and surfactants.	4L/20L 200L
AMCi PARAFORMALDEHYDE PRILLS "FORMAXINE"	Paraformaldehyde Prills containing 91% formaldehyde in a polymerized form.	2x10kg 1x10kg
HEMEXSAN	An environmental friendly powder for livestock housing and animal bedding which controls red mites, fly larvae and other external parasites.	20kg
HEMEXSAN PLUS	An environmental friendly powder for livestock housing and animal bedding which controls red mites, fly larvae and other external parasites. Fly repellent.	20 kg

EQUIPMENT

WASTE SEPARATION TECHNOLOGY

Press Screw Separators (PSS)

Press Screw Separators by FAN cover a broad spectrum of applications from the agricultural industry, biogas and bioethanol plants, food processing industry and up to the chemical industry. This innovative technology separates sewage in its solid and liquid elements.

Livestock Industry Separator

- Fan Separator PSS 1.1-300
- Fan Separator PSS 1.2-520/780 (220V/60Hz or 400V/50Hz Three Phase)

Mobile Separator

- Plug and Play Separator System (220V/60Hz or 400V/50Hz Three Phase)

Food Industry Separators (Stainless Steel)

- Fan Separators PSS 5.2 520/780 (220V/60Hz or 400V/50Hz Three Phase)

PUMPING TECHNOLOGY

Slurry Pumps

Slurry Pumps are essential factors for the waste management systems to function properly and it is used in the transportation of fluid mediums on agricultural farms.

- Helix Drive (Surface Pump)
- Magnum ESP/CSP (Submersible Pump) (220V/60Hz or 400V/50Hz Three Phase)

AGITATION TECHNOLOGY

Slurry Mixer

Properly stirred slurry guarantees uniform distribution of nutrients, increases yield and promotes optimum homogenization of fluid mediums.

- Submersible Motor Mixer MSX/MSXH (400V/50Hz Three Phase)
- Electric Mixer MEX 305/450G (220V/60Hz or 400V/50Hz Three Phase)
- Turbomix Tractor Mixer MTX/MTXH
