

AMCiBIOMAX 143

Multivitamins with Electrolytes Concentrate Powder

AMCiBiomax 143 is a special blend of selected vitamins, minerals and electrolytes designed to support the demands of intensively-reared animals.

AMCiBiomax 143 is a special formula, which contains the necessary and essential vitamins and minerals required for daily metabolic processes to improve the overall performance of animals.

AMCiBiomax 143 helps animals cope with stressful conditions related to environment change, feed change, vaccination, medication, castration, de-beaking and other management activities.

AMCiBiomax 143 enhances water consumption to ensure the normal body fluid balance in livestock and poultry.
