

AMCi E PLUS

Vitamin E + Chelated Selenium Feed Premix

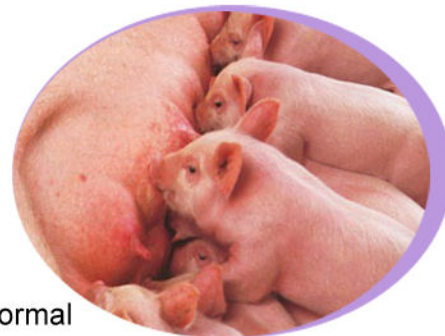

AMCi E Plus delivers supplemental Vitamin E and chelated Selenium for optimal growth and production performance of intensively-reared animals under a variety of management conditions.

AMCi E Plus contains Vitamin E which is essential in the production of significant levels of antibodies and improvement of humoral immunity and phagocytic activity of macrophages in animals. Chelated Selenium assists in Vitamin E absorption and retention.

BENEFITS:

Swine

- AMCi E Plus increases litter size and weight at birth and weaning.
- AMCi E Plus reduces piglet mortality.
- AMCi E Plus reduces incidence of Mastitis-Metritis-Agalactia (MMA).
- AMCi E Plus increases sow milk yield.
- AMCi E Plus improves semen quality in boars.
- AMCi E Plus enhances sperm motility and can effectively reduce abnormal sperm cells.

Poultry

- AMCi E Plus improves productivity.
- AMCi E Plus improves performance during stress.
- AMCi E Plus enhances immuno-competence.
- AMCi E Plus increases resistance to diseases.

INDICATION:

For the prevention of Vitamin E and Selenium deficiency which may cause poor reproductive performance, retarded muscle development, weak resistance against diseases and inferior performance of growing animals.

COMPOSITION (per kg):

Vitamin E.....	45, 000 mg
Selenium.....	350 mg

DOSAGE and ADMINISTRATION: 250 g/ton of complete feeds

** For severe conditions or deficiency, dose can be doubled.

PACKAGING: 25 kg Kraft Bag
