

GLUTA +

Gluta + is a synergistic blend of glutaraldehyde, benzalkonium chloride and sufficient amount of non-ionic surfactants.

The glutaraldehyde component destroys the cell wall of the pathogen and the benzalkonium chloride breaks down the pathogen's DNA and RNA completing viral or bacterial destruction. I

COMPOSITION:

Glutaraldehyde.....	15%
Quaternary Ammonium Compounds.....	10%

FEATURES:

- Broad-spectrum effects against a wide range of pathogens like viruses, bacteria, and fungi
- Fast-acting and provides long-lasting effect up to 7 days
- Non-corrosive and non-irritating at recommended levels
- Tolerates hard water
- Used on hard surfaces and as a general farm sanitizer
- Deodorizes and leaves a fresh scent

DILUTION RATE:

For disinfection of livestock and poultry buildings / equipment and vehicles

For routine use 1: 400 (2.5 ml / L of water)

For heavy duty use 1: 200 (5.0 ml / L of water)

***300 ml of solution can effectively disinfect 1 sq. meter area*

HANDLING AND STORAGE PRECAUTIONS:

- Keep out of children's reach.
- Keep all disinfectants away from food, feedstuff and other chemicals.
- Avoid direct skin contact with pure Gluta +.
- Use of protective goggles and gloves is recommended.
- Diluted product is generally safe to handle.
- Store in original container protected from direct sunlight, heat and moisture.
- Store at 4^o C to 35^o C.
- Keep lid tightly closed.
- Do not reuse containers.

*** In case of accidents, flush eyes with running water and wash skin with soap and water.*

*** If irritation persists, seek medical advice.*

PACKAGING: 4 L, 20 L

** Gluta + is a product of Heaton (Export & Marketing) Limited, UK*
